the European Union

The School of Medicine of the University of Mostar implemented internationalization in three subjects (Medical physiology, Immunology and Medical Microbiology and Parasitology) in the Study of Medicine in English language in December of 2024, which is an integral part of this report. Teachers from those courses and associates of the study program Medicine in English participated in this activity.

The key aspects of the internationalization of the curriculum were the use of English language, internationalized student learning outcomes, internationalized content, internationalized teaching and learning activities and internationalized assessment methods.

It is important to note that foreign students attend this study program from over 10 different countries of the world. In this way, internationalized courses will continue to be offered in the future, which guarantees the sustainability of the deliverable.

### ODLUKA

#### O usvajanju izmjena silabusa predmeta Medical Physiology, Immunology, Medical Microbiology and Parasitology

##### I

Usvajaju se izmjene silabusa predmeta Medical Physiology, Immunology, Medical Microbiology and Parasitology, na studiju Medicine na engleskom jeziku Medicinskog fakulteta u Mostaru, a koje se odnose na sadržaj predmeta, metode poučavanja, metode ocjenjivanja te ogledne testove kao sredstvo konstruktivnog poravnanja („constructive alignment“).

##### II

Izmjene navedenih predmeta sastavni u dio ove odluke.

##### III

Izmjene u silabusima navedenih predmeta primjenjivat će se na studente upisanu u prvu godinu, a od akademske 2024./2025. godine.

##### IV

Odluka stupa na snagu s danom donošenja.
